

Zeag USA, Inc. is a provider of innovative solutions in the parking industry for municipalities, universities, airports, parking facility owners and operators. Zeag USA is a wholly-owned subsidiary of Zeag Group, a leading international parking systems company, operating for more than 30 years in the parking industry.

We are headquartered in Bloomington, MN with commercial and technical support facilities throughout the U.S. and have the following exciting opportunity to join our rapidly-expanding team:

Software Developer

This is a newly created position which will be responsible for designing and modifying applications to manage, report and control automated parking equipment while reporting to our Sr. Software Developer. This position will be a vital part of the development process, working as part of a team based across multiple countries, and will utilize existing designs as well as develop new methods for integration into our current suite of applications.

Minimum qualifications include a bachelor's degree in electrical engineering, computer science or similar. Applicant must also have two years of software development experience using Visual Studio, SQL Server and related technologies, preferably in the security industry. Knowledge of C#, Microsoft.NET Framework, ASP.NET, SQL Server 2005 and 2008, SQL Server Reporting Services, Crystal Reports and SharePoint is also preferred.

Applicant must possess strong programming skills and a sound understanding of the principles behind software development, problem-solving and analytical skills, excellent written and verbal communication skills and a demonstrated ability to work effectively in a team environment. Applicant must also be a quick learner and be eager to leverage new technologies in a dynamic, fast-paced, team environment.

Qualified candidates may e-mail their resumes to hire.manager@zeagusa.com or fax them to 952-277-3607.
